

jarchitect report summary

application name	Juliet Test Suite
report build date	10/30/2019 10:11:23
analysis duration	24:23
jarchitect version	2019.2.0 Evaluation 9 days left
baseline for comparison	Not Defined. To define a Baseline for Comparison, please read this online documentation .
code coverage data	Not Defined. To import Code Coverage Data, please read this online documentation .

[GET STARTED.](#) [QUICK TIPS.](#) [BACK TO JARCHITECT .](#)

The present HTML report is a summary of data gathered by the analysis. It is recommended to use the JArchitect interactive UI capabilities to make the most of JArchitect by mastering all aspects of your code.

Application Metrics

Note: Further [Application Statistics](#) are available.

Logical lines of Code

1 964 532

0 (NotMyCode)

Estimated Dev Effort 41 298d

Debt

2.79%

Rating **A**

Debt 1 151d

The technical-debt is incomplete because no coverage data specified.

Quality Gates

Fail	2
Warn	0
Pass	3

Types

47 540

1 Projects

309 Packages

267 628 Methods

14 340 Fields

46 804 Source Files

1 056 Third-Party Elements

Coverage

N/A because no coverage data specified

Rules

Critical	1
Violated	10
Ok	199

Comment

N/A because some assemblies are written in a language different than C#

Method Complexity

45 Max

3.52 Average

Issues

All	174 169
Blocker	0
Critical	0
High	24
Medium	174 064
Low	81

Quality Gates summary

9 0 2

 Some Quality Gates fail. The build can be stopped upon quality gate failure. [Online documentation](#).

Name	Value	Group
 Percentage Code Coverage	N/A because no coverage data	Project Rules \ Quality Gates

Name	Value	Group
 Percentage Coverage on New Code	N/A because no coverage data	Project Rules \ Quality Gates
 Percentage Coverage on Refactored Code	N/A because no coverage data	Project Rules \ Quality Gates
 Blocker Issues	0 issues	Project Rules \ Quality Gates
 Critical Issues	0 issues	Project Rules \ Quality Gates
 New Blocker / Critical / Major Issues	N/A because no coverage data	Project Rules \ Quality Gates
 Critical Rules Violated	1 rules	Project Rules \ Quality Gates
 Percentage Debt	2.79 %	Project Rules \ Quality Gates
 New Debt since Baseline	N/A because no coverage data	Project Rules \ Quality Gates
 Debt Rating per Package	1 packages	Project Rules \ Quality Gates
 New Annual Interest since Baseline	N/A because no coverage data	Project Rules \ Quality Gates

Rules summary

224 9 1

Number of Rules or Queries with Error (syntax error, exception thrown, time-out): 0

Number of Rules violated: 10

Rules can be checked live at development-time, from within Visual JArchitect. [Online documentation.](#)

Name	# Issues	Elements	Group
 Avoid types too big	322	types	Project Rules \ Code Smell
 Avoid methods with too many local variables	70	methods	Project Rules \ Code Smell
 Avoid methods with too many overloads	7	methods	Project Rules \ Code Smell
 Avoid methods potentially poorly commented	36518	methods	Project Rules \ Code Smell
 Nested types should not be visible	737	types	Project Rules \ Object Oriented Design
 Packages with poor cohesion (RelationalCohesion)	81	namespaces	Project Rules \ Architecture
 Methods name should begin with an lower character	46160	methods	Project Rules \ Naming Conventions
 Avoid types with name too long	45879	types	Project Rules \ Naming Conventions
 Avoid methods with name too long	44392	methods	Project Rules \ Naming Conventions
 Avoid having different types with same name	3	types	Project Rules \ Naming Conventions
